Overview

The Identity Management (IM) Cell manages information related to the setup, maintenance and security of patients from heterogeneous sources. This data may be encrypted and is restricted by project and user.

Note

The installation of this cell is optional. If you do not wish to install it you can proceed to the next chapter on *Initial Setup*.

Chapter 13. Table of Contents

13.3 Stop Services

13.6 Start Services

13.9 Next Steps

13.2 Identity Management Installation Overview

- 13.2.1 Source Code and Directory Structure

13.7 Update IM Cell Data in i2b2 Standalone Admin

13.1 Prerequisites

13.8 Verify IM Installation

13.4 Configuration

- 13.4.3 Configure the IM Properties
  - 13.4.3.2 Project Management Cell Properties
  - 13.4.3.4 Other EMPI Service Properties
  - 13.4.3.1 Set Schema Name
  - 13.4.3.3 Patient in Project Property
- 13.4.1 Configure the IM Build Properties
- 13.4.4 Data Source Configuration
- 13.4.2 Configure the IM Application Directory Properties

13.5 Deployment
