Overview

13.8 Verify IM Installation · https://i2b2.org/docs/13-8-verify-im-installation/

Although this step of the installation is optional it is highly recommended that you do a "Sanity Check" to make sure the IM Cell was installed correctly before installing another cell.

Verify Web Services

At this point in the installation process you want to do a quick check to make sure the Web Service for the IM Cell is running.

Steps to verify web services

1. Open your web browser and enter the following URL:

http://yourHost:9090/i2b2/services/listServices

2. Verify the **IMService** is listed as active.
