Overview

2.2 Standalone Admin Module Installation · https://i2b2.org/docs/2-2-standalone-admin-module-installation/

Installation Overview

In this chapter we will be installing the i2b2 Administration Module in a different location than the webclient install.

Important

The Admin has to be installed **after the i2b2 server** has been deployed.

Order of Installation

The basic steps that will be taken during this installation are as follows:

Step 1: Copy the Admin directory to your web server directory

Step 2: Configure the Admin for your domain

Step 4: Verify installation

Important

The details of what is to be done for each step are defined in the different sections within this chapter. It is important to follow steps in the order they are defined and not to skip any of them unless otherwise noted.
