2.6.2 Download i2b2 Software

2.6 i2b2 Requirements · https://i2b2.org/docs/2-6-2-download-i2b2-software/

The steps in this section outline the process of accessing and downloading the required i2b2 software files from the i2b2 web site. They are written for downloading the i2b2 Workbench but they apply to any of the files that you will be downloading.

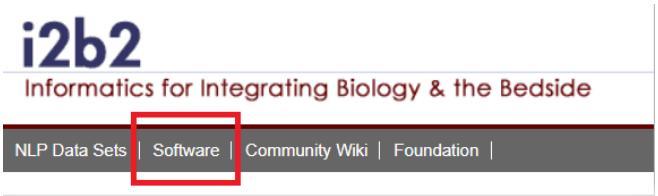

Assumptions:

Depending on your browser and your version of windows or mac you may need to select a target directory to save your files. For this document, the assumption is made that the files will be downloaded to your *Download Folder*.

i2b2 Software Download Steps

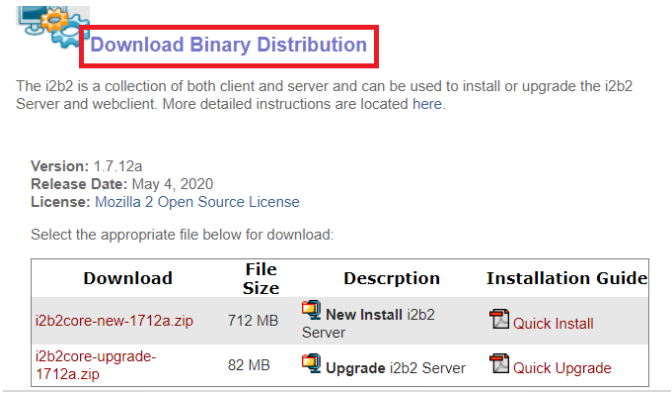

1. Go to the i2b2 website (http://www.i2b2.org)

2. At the top of the page there is a navigation bar, click on **Software** to go to the *Software page*.

3. The software page will load. You can download the current version distribution files under their respective sections

4. Current release Binary Distribution files can be downloaded under Download Binary Distribution section

Download Binary Distribution

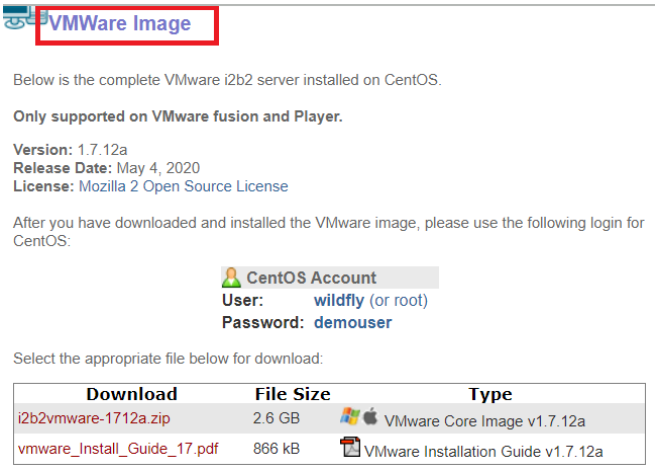

The i2b2 is a collection of both client and server and can be used to install or upgrade the i2b2 Server and webclient. More detailed instructions are located here.
