Overview

3.10 Next Steps · https://i2b2.org/docs/3-10-next-steps/

Steps Completed

The following steps were completed during this chapter on the data installation process.

Data Installation Chapter

Extracted the i2b2 data package

Created database user accounts for i2b2 schemas

Created the tables and loaded the data for the following:

Crcdata

Hivedata

Imdata

Metadata

Pmdata

Workdata

Next Steps

After completing this chapter on Data Installation you are now ready to begin installing the i2b2 server as described in Server Install section

If you are building build i2b2 from source code, before you can install any cells you need to first install the i2b2 Server-Common. The procedures for this step are outlined in the **i2b2 Server-**

Common Install chapter.
