Overview

3.6 IM Tables · https://i2b2.org/docs/3-6-im-tables/

Overview of the IM Data Installation Process

The Imdata tables are part of the **Identity Management (IM) Cell**. The following outlines the steps that will be taken during the Imdata installation.

Step 1: Change your working directory

Step 2: Configure the database properties for the Imdata

Step 3: Create the Imdata tables, indexes and sequences

Step 4: Load sample data into the tables
