Overview

3.7 Metadata Tables · https://i2b2.org/docs/3-7-metadata-tables/

Overview of the Metadata Installation Process

The Metadata tables are part of the **Ontology Management (ONT) Cell**. The following outlines the steps that will be taken during the Metadata installation.

Step 1: Change your working directory

Step 2: Configure the database properties for the Metadata

Step 3: Create the Metadata tables, indexes and sequences

Step 4: Load sample data into the tables
