6.3.4.1 Delete Hive Parameters

Steps for Deleting a Hive (Global) Parameter

The following steps outline the process of deleting a hive parameter in the i2b2 Administration Module.

Assumption: The following steps assume you are already logged into the i2b2 Administration Module. If you do not know how to login please see the chapter titled *i2b2 Administration Module Install*.

1. In the Navigation panel, expand **Manage Hive** to display the available options.

2. Expand the **Global Params** option.

3. A list of existing hive parameters will display in the Navigation panel.

4. In the Navigation panel, click on the **name of the parameter** you want to delete.

5. The *Edit Parameter* page will display on the right.

6. Click on **Delete** to remove the parameter.

7. The parameter will be removed from the list of parameters on the *Parameters List* page.

8. In the Navigation panel click on **Global Params** to refresh the hierarchical tree and verify the parameter no longer appears in the list.
