6.4.2.1 Add Cell Parameters

Steps to Add a Cell Parameter

The following steps outline the process of adding a parameter to a cell from within the i2b2 Administration Module.

Assumption: The following steps assume you are already logged into the i2b2 Administration Module. If you do not know how to login please see the chapter titled *i2b2 Administration Module Install*.

1. In the Navigation panel, expand **Manage Cells** to display a list of cells.

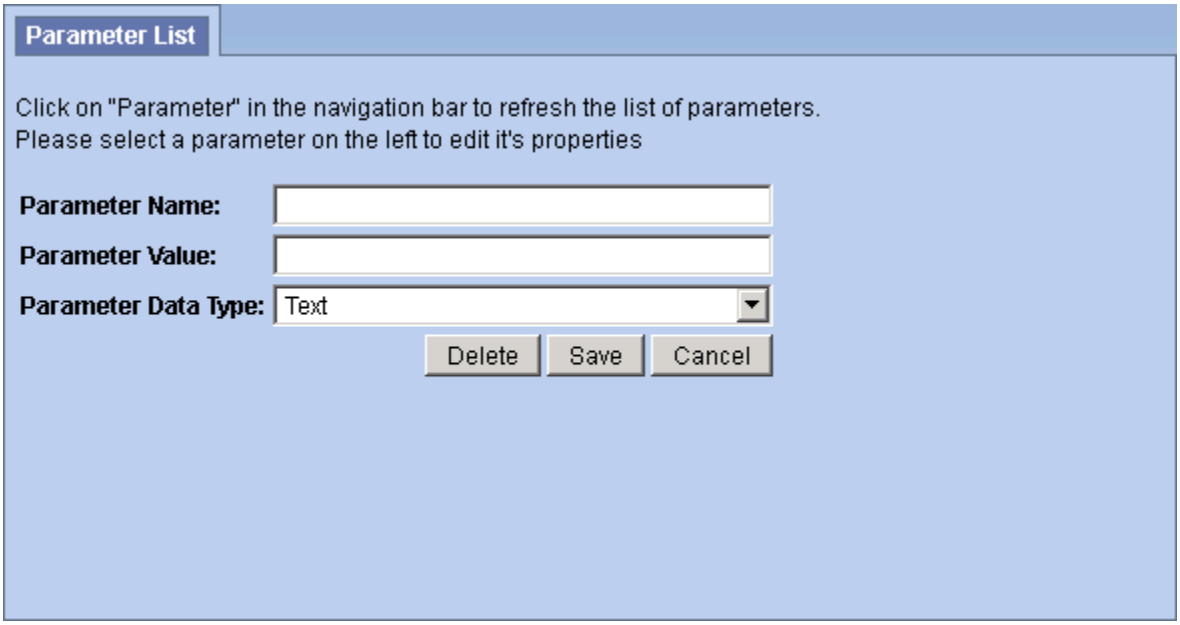

2. Expand the **name of the cell** you want to add a parameter to.

3. Click on the **Params** option that displays under the cell's name.

4. The **Parameters List** page will display on the right side of the window pane.

5. Click on **Add New Parameter**. The *Enter Parameter* page will display.

6. Enter the name of the parameter, the value for the parameter and the data type for the parameter.

7. Click on **Save** to save the new parameter.

8. The *Parameters List* page will display with the new parameter.

9. In the Navigation panel click on **Params** to refresh the hierarchical tree and display the new parameter.
