6.6.5.2 Edit Project User Parameters

Steps to Edit a Project User Parameter

The following steps outline the process of editing a project user parameter in the i2b2 Administration Module.

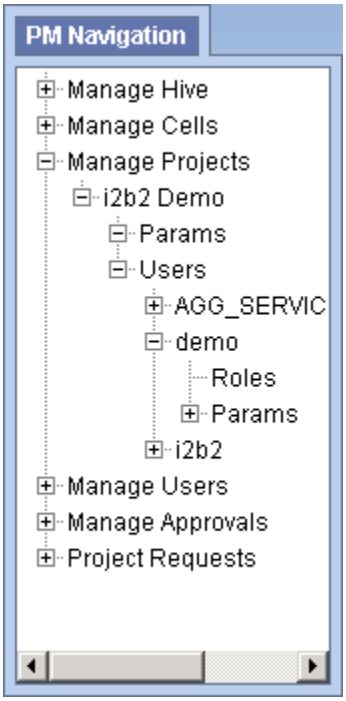

Assumption: The following steps assume you are already logged into the i2b2 Administration Module. If you do not know how to login please see the chapter titled *i2b2 Administration Module Install*.

1. In the Navigation panel, expand **Manage Projects** to display a list of projects.

2. Expand the **name of the project** that has the user whose parameter you want to edit.

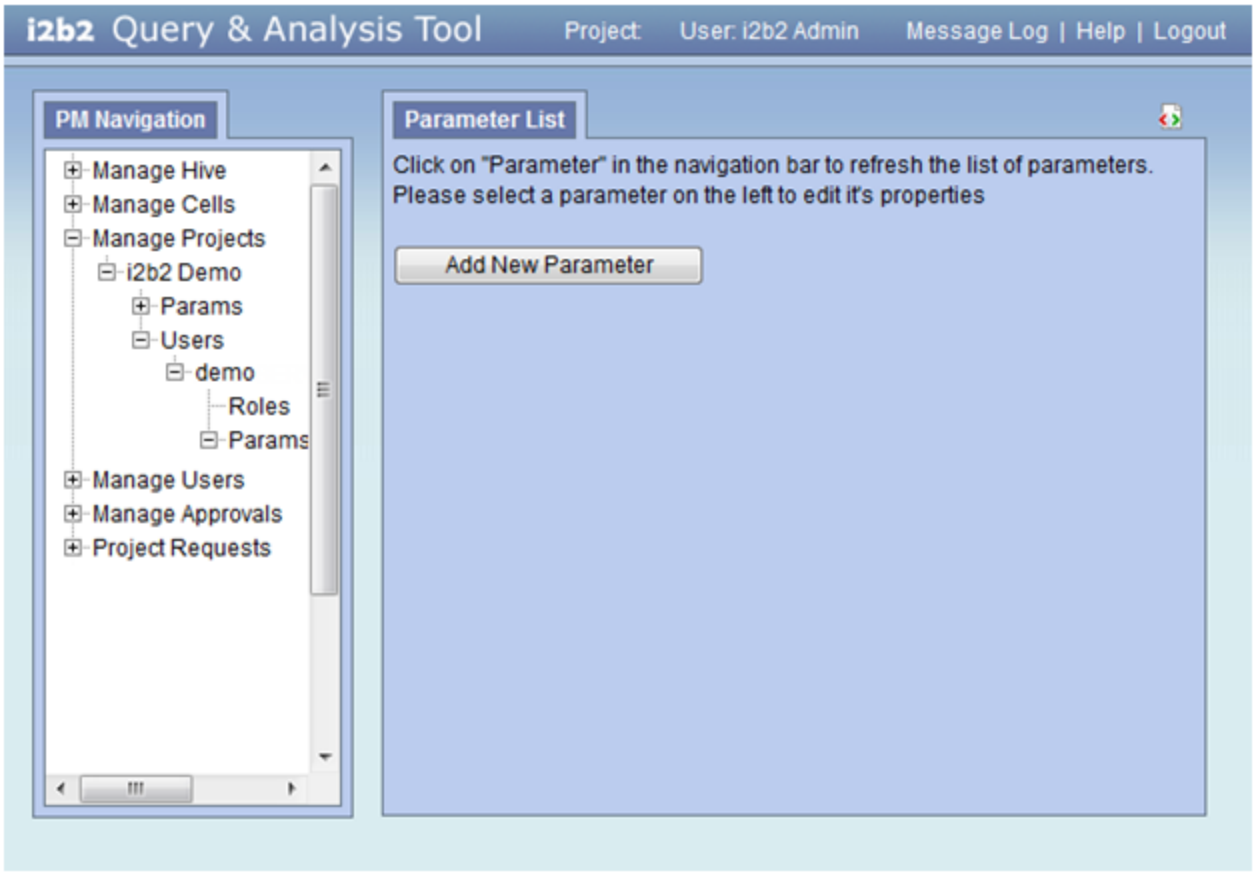

3. Expand the **name of the user** to display a list of options.

4. Expand the **Params** option to display a list of the parameters.

5. Click on the **name of the parameter** you want to edit.

6. The **Parameters Summary** page will display on the right side of the window pane.

7. Make the edits to the parameter and click on **Save** to save the changes.

8. In the Navigation panel click on **Params** to refresh the hierarchical tree and display the new parameter.
