# Overview

Chapter 6. Initial Setup of i2b2 in Admin · https://i2b2.org/docs/chapter-6-initial-setup-of-i2b2-in-admin/

Now that you have finished installing the i2b2 cells and clients the next step is to setup your projects and users in the i2b2 Administration Module. This chapter will contain various sections on how to save data and parameters for the hive, projects and users. There is also a section on the different Authentication Methods supported by the i2b2.

A new admin module is now included in the webclient as of i2b2 1.8.1. That documentaion can be found at Web Client Help.
