Overview

i2b2 Installation Guide · https://i2b2.org/docs/i2b2-installation-guide/

NEW! *Updated for 1.8!*

Informatics for Integrating Biology and the Bedside (i2b2) is one of the sponsored initiatives of the NIH Roadmap National Centers for Biomedical Computing (http://www.bisti.nih.gov/ncbc/).

One of the goals of i2b2 is to provide clinical investigators with the software tools necessary to collect and manage project-related clinical research data in the genomics age as a cohesive entity; a software suite to construct and manage the modern clinical research chart. This guide along with the provided source code will help you install the i2b2 server, Web Client, and Workbench.
